: Main Features

LIGHTWEIGHT

With only 3.9 ounces per square foot (1.2 kg per square meter) MYMOSAIC can be applied onto all surfaces, particularly onto drywalls, ceilings, furniture, elevators and all those materials with low weight - bearing features.

OUTDOOR

The MYMOSAIC tiles are outdoor resistant and highly durable in time. MYMOSAIC can inspire various applications thanks to the high performances with any weather conditions.

LOW THICKNESS

With only 0.07 inches (2 mm) of thickness MYMOSAIC can be applied onto all surfaces, particularly - in case of renovation - onto existing tiles or covering.

EASY TO INSTALL

MYMOSAIC arrangement is very intuitive: each tile is sequentially numbered and an assembly diagram is supplied with, to help you during MYMOSAIC application.

BACKLIT

On top of all its distinguishing features, MYMOSAIC can also be backlit providing original optical effects.

ANTI-SLIPPER

On top of all its distinguishing features, MYMOSAIC can also be backlit providing original optical effects.

FITS ALL SIZES

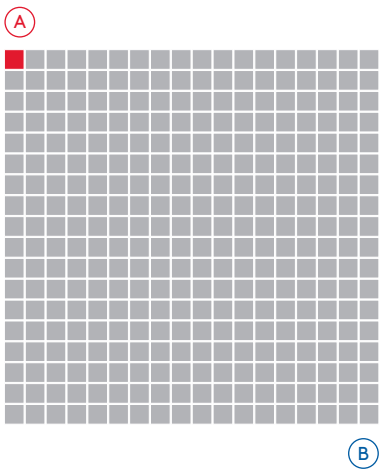

MYMOSAIC can expand the image on endless surfaces: THE LIMIT IS YOUR WALL!

FLEXIBILITY

MYMOSAIC is flexible and can be wrapped around curved shapes.
